Preface

The Delivery Agreement was subject to a formal public consultation period between 9th November 2017 and 5th January 2018. A report of consultations was considered by Pembrokeshire County Council's Cabinet on 19th March 2018. Pembrokeshire County Council resolved at Full Council on the 10th May 2018 to formally submit the document to Welsh Government.

A revised version, setting out a timetable for the remainder of the process and reflecting delays as a result of the Covid-19 pandemic was considered by Pembrokeshire County Council's Cabinet on 5th October 2020. Pembrokeshire County Council resolved at Full Council on the 8th October 2020 to submit the revised Delivery Agreement to Welsh Government.

Summary

- a) This document – the Delivery Agreement – is a key document in the production of the Local Development Plan (LDP). It sets out the timetable for Plan production, the ways in which the Authority will consult on the Plan (its Community Involvement Scheme) and the resources that the Authority will dedicate towards Plan production.
- b) The Planning and Compulsory Purchase Act, 2004, requires every Local Planning Authority to review its Local Development Plan (LDP) on a regular basis. Pembrokeshire County Council commenced review of its LDP on the 5th May 2017.
- c) **The area covered by the Pembrokeshire County Council Replacement Plan is the area of Pembrokeshire, excepting National Park locations.**
- d) The purpose of review is to ensure that the LDP stays up-to-date. Review provides the opportunity to make changes to the Plan, if these are required.
- e) Sometimes, a LDP Annual Monitoring Report (AMR) will identify one or more issues that will prompt an earlier review of a LDP. In the case of PCC's LDP, the first three AMRs have not identified any issue of sufficient severity to prompt an early review. The fourth AMR was published on the 31st October 2017, several months beyond the 4-year date that triggers automatic commencement of full review of the Council's LDP. Since then further AMRs have been published, the latest (for year 7) on 31st October 2020.
- f) The Council is required to state an end date for LDP 2. This has been set for 31/12/33, which will ensure that there is at least a 10-year period for the Plan to run at its adoption date.
- g) The Delivery Agreement (this document) has two key sections. The first is a *Timetable* of the key stages of Plan preparation. The second is a *Community Involvement Scheme*, which sets out the ways in which community engagement will take place. Further matters that are considered are the details of how the *Sustainability Appraisal, including Strategic Environmental Assessment*, of the LDP will be undertaken, details of how *Habitats Regulation Appraisal* will be undertaken and details of which items of *Supplementary Planning Guidance* it is proposed to review concurrently with LDP 2 preparation which are proposed for review following adoption of LDP 2.

- h) The aspects of the Delivery Agreement setting out *Timetable* details will be expected to:
 - i) Set definite dates for completion of stages of the Plan process up to LDP Deposit. (Deposit is the stage at which there is public consultation on a full draft Plan).
 - ii) Set indicative dates for completion of stages of the Plan process beyond Deposit. This new version of the Delivery Agreement converts these into definite dates for those elements within the LPAs control, as required prior to Submission of the LDP to the Welsh Government.
- i) The *Community Involvement Scheme* forms part of the Delivery Agreement. It explains how the Council will engage with stakeholders and the general public throughout the Plan preparation process. It also explains how feedback will be provided on a regular basis. As a consequence of the Covid-19 pandemic, some aspects of this have had to be revised.
- j) Broad details of the *Timetable* are shown in the table in section 1 – Introduction. There are definite dates set to Submission stage and indicative ones beyond Submission.
- k) The Delivery Agreement and any revision to it must be approved by formal resolution of the Council and subsequently agreed with Welsh Government. It must be publicised and made available for public inspection.
- l) Welsh Government expects Local Planning Authorities to complete the review of their LDPs in less than four years. This expectation has been reflected in the timetable set for review of this Plan. However, the Covid-19 pandemic means that the initial aspiration can no longer be met.
- m) In accordance with Welsh Government guidance, the Council will seek consensus on the best way forward for the future of the Plan area. There will be engagement with stakeholders throughout the Plan preparation process and consultation with the general public at key stages in that process.
- n) The policies and proposals of the LDP will be required to comply with national legislation, guidance and regulation.
- o) Following the Deposit stage, the LDP will be submitted to Welsh Government and will then be examined by an independent Inspector from the Planning Inspectorate Wales.
- p) The Inspector who examines the LDP will prepare a report on the Plan. This will include binding recommendations for the Council. The Plan must be adopted in a timely manner following receipt of the Inspector's Report, and in

accordance with the recommendations of the Inspector. The Inspector has powers to add to the Plan, amend it and / or delete parts of it.

- q) The weight that can be accorded to an emerging revised LDP, when determining planning applications, is not a straight-forward matter. It does not necessarily reflect the stage the emerging Plan has reached in its preparation. Careful consideration will need to be given to the underlying evidence and background to the emerging policies and the requirements of national policy. There cannot be total certainty over Plan content until the Inspector's binding report is received. This is explained in more detail in paragraph 2.14.1 of Planning Policy Wales, edition 9. Until LDP 2 is adopted, the current LDP (adopted on 28/02/13) will remain in force as the Development Plan for the parts of Pembrokeshire not in the National Park. On the 24th September 2020 the Welsh Government Minister wrote to all Local Authority Leaders and Chief Executives clarifying that the provisions in the Planning Wales Act 2015 which commenced on 4 January 2016 did not have a retrospective effect. This means that the provisions do not apply to LDPs adopted prior to this date and Plans adopted prior to 4 January 2016 will remain the LDP for determining planning applications until replaced by a further LDP. As the Pembrokeshire LDP was adopted on 28th February 2013, it will therefore continue to be the LDP for determining planning applications, until replaced by LDP 2.

- r) Once adopted, the LDP will be regularly monitored, in line with Welsh Government requirements. Annual Monitoring Reports will be prepared, in a similar manner to those currently undertaken for LDP 1.

1 Introduction

Local Development Plans

- 1.1 In Wales, up-to-date Local Development Plans (LDPs) underpin a plan-led planning system. LDPs provide a local context for consistent decision making reflecting local circumstances and in line with Welsh Government policies and guidance. In particular, the planning system is designed to make a planned provision for an adequate and continuous supply of land to meet society's needs – and to do so in line with sustainability principles, taking account of the requirements of the Well-being of Future Generations (Wales) Act, 2015. Decisions on planning applications are expected to be made in accordance with adopted LDPs, unless material considerations indicate otherwise. In the Council's planning area, the vast majority of planning decisions are made in accordance with the provisions of the adopted Development Plan.
- 1.2 LDPs in Wales are prepared by either Councils or National Park Authorities, under the terms of the Planning and Compulsory Purchase Act, 2004 and the associated 2005 Regulations and 2015 Amendment Regulations. They show how land uses are expected to change to accommodate development needs over a specified plan period, providing certainty for developers and the general public. They also protect certain areas of land that are valued for a variety of reasons, for instance their importance for biodiversity, their significance for recreational and amenity purposes and / or their landscape quality.
- 1.3 LDPs contain a mix of strategic, local and site-specific policies and proposals. These cover the main types of development likely to take place in the Plan area. They should not repeat Welsh planning policy guidance.
- 1.4 In preparing their LDPs, Councils and National Park Authorities in Wales are required to meet the statutory requirements for Strategic Environmental Assessment (SEA), Sustainability Appraisal (SA) and Habitats Regulations Assessment (HRA). These considerations are embedded in the Plan preparation process. More information on these topics is included later in this section.
- 1.5 Local Well-being Plans will provide the overarching strategic framework for all plans and strategies prepared by local authorities, including LDPs. These are evolving from the earlier Single Integrated Plans and, prior to these, Community Plans. The requirement to prepare Local Well-being Plans is recent – that for Pembrokeshire is expected to be in place by April 2018, with a Well-being Assessment preceding this by about a year.

- 1.6 Supplementary Planning Guidance (SPG) is used to set out detailed thematic or site-specific guidance on the way in which the policies of an LDP are to be interpreted or applied in certain situations or areas. The use of SPG ensures that LDPs are prepared without the inclusion of excessive detail. SPG documents are not part of the LDP. However, subject to appropriate consultation being undertaken and to formal adoption by the Local Planning Authority, they may be a material planning consideration in the determination of planning applications. Further information on SPG is included later in this section.
- 1.7 The Plan area for the 1st LDP covers the whole of Pembrokeshire, except for National Park locations. In the Pembrokeshire Coast National Park, the National Park Authority is the Local Planning Authority and it prepares its own LDP. Terrestrial land use planning normally extends to the mean low water mark, but there is an exception around Pembroke Dock, where it runs to the mid-channel mark. The Plan area for the 2nd LDP will be the same as for the 1st iteration.

1.8

The Delivery Agreement for the replacement LDP

- 1.9 The revision of the LDP will entail a re-run of the whole Plan preparation process. The end product will be a Replacement LDP, which will supersede the current Plan when it is adopted. As this is a review of an existing LDP, an additional document must be prepared, one which was not required for the first LDP. This is a Review Report, setting out the main topic areas where the current LDP is performing poorly, identifying situations where it is out-of-date and setting out which parts of the Plan require revision.
- 1.10 Another of the early tasks in the review process is to prepare a new Delivery Agreement (which is this document) to replace that prepared for the 1st LDP. The requirements in relation to the form and content of the Delivery Agreement have not changed significantly since the 1st LDP was prepared. However, the timetable included this time around is for the review of the Plan. Community involvement requirements have also evolved and the new proposals within this document build on best practice.
- 1.11 In addition to the points made above, the soundness tests that will underpin the examination of the replacement LDP have changed since the 1st LDP was prepared. There are now three tests to be satisfied:
- i) Does the Plan fit? (In other words, is it clear that the Plan is consistent with other Plans?)
 - ii) Is the Plan appropriate? (In other words, is the Plan suitable for the area in which it will be used, in the light of the evidence collected?)

- iii) Will the Plan deliver? (In other words, is the Plan likely to be effective?)
- 1.12 The replacement LDP Delivery Agreement comprises a *Timetable* and a *Community Involvement Scheme*. There is also information included on *Sustainability Appraisal (including Strategic Environmental Assessment)* and *Habitats Regulations Appraisal* of the Plan and on the programme for preparing *Supplementary Planning Guidance* elaborating on aspects of the LDP.
- 1.13 The Delivery Agreement provides a project plan for LDP review and an explanation of how the community will be involved in plan preparation.
- 1.14 The Council is required to formally approve the Delivery Agreement, by resolution, and it must then be agreed by the Welsh Government. There are publicity and public inspection requirements relating to this.
- 1.15 Revision of the *Timetable* will only be required in exceptional circumstances. However, it may be necessary to revise the *Community Involvement Scheme* if significant changes occur. Timetable slippage to the end of the Deposit consultation was minor, but because of the Covid-19 pandemic that followed, substantial revisions to the *Timetable* and the details of the *Community Involvement Scheme* have been included.
- 1.16 For the PCC LDP, a full Plan revision is considered necessary. Welsh Government anticipates that completion of a full Replacement Plan should take ‘considerably less than 4 years’ (excerpt from paragraph 2.1.13 of PPW, edition 9). However, the Covid-19 pandemic has made this unrealistic for the Council’s LDP 2.
- 1.17 Whilst Pembrokeshire County Council had made good progress on Plan preparation and was within the parameters of the approved Delivery Agreement in March 2020, the Covid-19 pandemic has caused significant delay to the process and created a need to review the Plan’s evidence base.
- 1.18 The Welsh Minister Julie James wrote to all Chief Planning Officers in Wales in March 2020 outlining the Welsh Government’s advice to those Authorities preparing a Local Development Plan. This letter noted that:

“Where LPAs have fulfilled their legal obligations under the Delivery Agreement and Community Involvement Scheme, they have completed that statutory stage, but will need to pause and reflect how they progress the plan. Detailed consideration should be given to the implications on the timing of plan preparation and how much additional time will be required. This situation applies to Pembrokeshire and Carmarthenshire.

Pembrokeshire County Council: Consultation on the LDP Deposit plan concluded on the 18TH March 2020. Provided all the engagement events specified in the CIS have been completed, the plan will have fulfilled its legal obligations regarding the consultation stage.”

1.19 In July 2020, the Welsh Minister wrote to all Local Authority Leaders and Chief Executives and outlined the role that the planning system can play in the Covid-19 recovery. In this letter, she highlighted the need for Planning Authorities to re-assess their evidence base, strategy and policies in terms of sensitivity to the consequences for the pandemic. The Welsh Government require that this assessment be submitted alongside requests to extend Delivery Agreements. The COVID-19 Impact Assessment on Pembrokeshire County Council’s Local Development Plan 2 – Evidence Base, Policies and Strategy accompanies this document.

1.20 The table below sets out the key stages in the Plan process. It highlights the stages already completed and identifies new definitive and indicative dates for completion of the stages not yet undertaken. An optional stage, that of Focussed Changes, has been added to allow the Authority the opportunity to respond to issues raised through the Deposit consultation and in response to updated evidence assessing the likely impacts of the Covid-19 pandemic. Definite dates are shown in black font, indicative ones in grey font.

<i>Key stage</i>	<i>Definitive and indicative timings</i>
Review Report	Preparation started in May 2017, with the document published for informal consultation in November 2017, alongside the Delivery Agreement.
Delivery Agreement	. Approved by WG in June 2018. A revised Delivery Agreement was submitted to Welsh Government in October 2020.
Preferred Strategy	. Formal consultation took place Dec 2018-February 2019.
Deposit	Formal consultation took place between 15 January and 18 March 2020.
Focussed Changes	March/April 2021.
Submission to Welsh Government	By July 2021.
Examination	Winter 2021
Publication of the Inspector’s Report	Spring/ Summer 2022

Joint working with neighbour planning authorities

- 1.18 Consideration has been given to the possibility of preparing joint Plans with neighbour authorities. However, the timelines for the Replacement LDPs of the neighbour authorities are varied, as shown below:
- The Pembrokeshire Coast National Park Authority received its Inspector's Report in May 2020.
 - Ceredigion County Council's LDP review has been delayed and a revised Preferred Strategy is anticipated in 2021.
 - Carmarthenshire County Council review is following a broadly similar timeline to that of Pembrokeshire County Council, with Focussed Changes anticipated in early 2021.
- 1.19 Spatially there would be advantages to be gained from working with the National Park Authority on Plan review, with the end product being a single Plan for Pembrokeshire. However, the review timetables of the two authorities are out of sequence and the respective organisations vary in their direction and purposes. At the outset of PCC's LDP review, a decision to prepare a joint plan with the National Park Authority at this stage would have caused the National Park Authority to re-start Plan preparation, resulting in a significant loss of time for them and risking a period without a Plan once their current National Park LDP had reached its end date. It would also have resulted in Pembrokeshire County Council losing a lesser amount of time, as it would also have had to start again.
- 1.20 At the start of PCC's LDP review, Joint Plan arrangements would also have had impacts, to some extent, on Ceredigion County Council's Replacement LDP programme, which had commenced, albeit that it was at an early stage (Carmarthenshire had not started Plan review at that time). There are significant differences in the economic and cultural nature of Pembrokeshire, Ceredigion and Carmarthenshire that would make a Joint Plan potentially more complicated and lengthy to deliver. These include differences in Welsh language levels in communities, differences in the role of tourism, the particular relationship of Pembrokeshire to the National Park and the economic base of the different areas.
- 1.21 That said, as a longer term objective, joint Plan preparation with the National Park Authority, Ceredigion County Council and Carmarthenshire County Council is a future possibility. This would probably come into effect when the LDP 2s of the respective authorities come up for review. New requirements to

prepare regional Strategic Development Plans will also be a future consideration on joint working arrangements.

- 1.22 In the interim, while preparation of LDP 2s by each authority is progressing, there is an opportunity to prepare evidence jointly and to work collaboratively on matters of common interest, in particular the implementation and review of the individual LDPs. This is, in fact, already happening, with an approach based on mutual co-operation embedded in the work of the LDP teams of each organisation. Current collaboration relates to matters of regional and strategic importance, to specialist topic areas such as minerals and waste and to shared preparation of some elements of the evidence base. In some cases, collaborative working extends to authorities further afield, particularly those in the Swansea Bay City Region. At key stages, Joint Statements of Common Ground will be prepared as necessary, to provide clarity on shared approaches.

Sustainability Appraisal, including Strategic Environmental Assessment

- 1.23 The first iteration of the LDP was subject to Sustainability Appraisal (SA), including Strategic Environmental Assessment (SEA). This will also be the case for LDP 2. Sustainability Appraisal is used to assess the environmental, social and economic implications of emerging plans, strategies and policies. The requirement to undertake Sustainability Appraisal is set out in the Planning and Compulsory Purchase Act, 2004.
- 1.24 Sustainability Appraisal of an LDP incorporates Strategic Environmental Assessment (SEA), under which a thorough assessment of environmental and to a lesser extent social effects of Plans is undertaken. The primary purpose of SEA is to ensure that environmental considerations are taken into account in the preparation of Plans.
- 1.25 The Sustainability Appraisal, incorporating the Strategic Environmental Assessment, will be undertaken as follows:
- A Screening Report on the need for Sustainability Appraisal, including Strategic Environmental Assessment.
 - A Sustainability Appraisal Scoping Report, which will describe the current sustainability issues in the Plan area and set out a common set of sustainability objectives, against which the Plan will be judged.
 - An Initial Sustainability Appraisal Report, explaining how the options and detailed policies considered for the Plan are likely to perform with regard to the sustainability objectives set out in the Scoping Report. The Full Report will also assess how any harmful effects of LDP 2 can be avoided or offset and how beneficial effects can be maximised. This will be published alongside the LDP 2 Preferred Strategy. It will then be updated for the LDP 2 Deposit Plan.

- A final Sustainability Appraisal Report will be published following receipt of the Inspector's Report. This will include any modifications required in consequence of the conclusions of the Inspector's Report.
- A Sustainability Appraisal Adoption Statement, explaining how sustainability considerations and the Sustainability Assessment have been taken into consideration in the production of LDP 2.

Habitats Regulation Appraisal

- 1.26 Habitats Regulations Assessment (HRA) is required for any Plan or Programme which is likely to have a significant impact on a Natura 2000 site (a Special Area of Conservation – SAC, or a Special Protection Area – SPA), if that Plan or Programme is not directly concerned with the management of the site for nature conservation purposes. This requirement derives from European Union Directive 92/43/EC, which is often referred to as the Habitats Directive, and from earlier European Union Directive 79/409/EEC, generally known as the 'Birds Directive'. The assessment is required to identify the likely effects of the Plan or Programme on the Natura 2000 site, indicate whether these effects are justifiable in a wider context and identify any mitigation measures that must be taken.
- 1.27 Habitats Regulations Assessment has two stages:
- Screening.
 - The Assessment itself.

Supplementary Planning Guidance

- 1.28 For the first iteration of the LDP, several items of Supplementary Planning Guidance (SPG) were prepared and adopted by the Council. Some of these evolved at the same time as the parent Plan, others were prepared following Plan adoption. Several have been updated recently.
- 1.29 The first iteration of the LDP will cease to have effect when LDP 2 is adopted. At that time, any items of SPG adopted to support the first iteration of the LDP will also cease to have effect.
- 1.30 The Council is actively re-drafting of the Supplementary Planning Guidance on Development Sites and Infrastructure in conjunction with LDP review. Preparation of this document, including consultation, will run concurrently with review of the Plan.
- 1.31 Other items of SPG that currently support the LDP will be re-drafted following adoption of the replacement Plan. They will be subject to public consultations prior to their adoption as documents to support LDP 2. There are insufficient resources available to re-draft these further items concurrently with LDP

review. The further items cover the topics of Affordable Housing, Planning Obligations, Biodiversity, Design, Renewable Energy and Parking Standards.

- 1.32 It is possible that other items of SPG may also be identified during or after Plan preparation. These may be topic-specific or related to a particular spatial area.
- 1.33 Various items of planning-related good practice guidance have also been prepared to support LDP 1. These are of an informal nature, are not subject to consultation processes and carry more limited weight in the planning process. They will remain in force after adoption of LDP 2. However, some may require revision post-adoption of LDP 2 to reflect any changes in LDP policies in the relevant topic areas.
- 1.34 The Council has previously prepared some items of SPG jointly with the Pembrokeshire Coast National Park Authority. Wherever possible, it will look to continue arrangements for joint preparation in the future.

2 Timetable

- 2.1 For timetabling purposes, the initial LDP Delivery Agreement had some stages where timings were precisely defined and other stages where the timings were indicative. The LDP Manual edition 3 says that definite start and end dates should be identified for stages of the Plan process up to the Deposit of the LDP, with indicative dates used for the post-Submission stages. However, there is an expectation that the indicative dates for the later stages would be converted into definite dates following Deposit, for agreement with Welsh Government, and would be published prior to Submission of the LDP. PCC is using this review of its LDP 2 Delivery Agreement to achieve this, but as dates beyond the Submission stage are in the control of the Inspector, these should still be considered as indicative..
- 2.2 A small amount of flexibility can be built into the timetable for Plan preparation. Welsh Government advises that this should be no more than three months. This provides a short period within which slippage can take place without a formal need to amend the Delivery Agreement. Revision to the timetable is only likely to be required in exceptional circumstances. However, if a revision to the Delivery Agreement is found to be necessary, details will be published on the Council's website. Up to the close of the Deposit stage of LDP review, the Council was still within the slippage flexibility period, having lost comparatively little time in completing the initial stages of Plan review. However, since then the impacts of the Covid-19 pandemic have been significant and have resulted in exceptional circumstances that require a re-calibration of the timetable for the remaining stages of the Plan process.
- 2.3 Measures for corporate scrutiny have been put in place to monitor progress with preparation of the LDP. Scrutiny will take place through regular meetings with Members. Key documents of the LDP will also require approval by Cabinet and / or Full Council prior to public consultation and eventual adoption.

Stage	Regulation	Key steps to be taken at this stage	Completion target dates and publication / submission dates
Review Report		<ul style="list-style-type: none"> • Consider the key conclusions from previous LDP Annual Monitoring Reports. • Commence update of the LDP evidence base and undertake stakeholder engagement. • Commence publication of completed background papers and evidence. • Informal public consultation on the draft Review Report, alongside the Delivery Agreement. • Consider responses to the Review Report and revise, if necessary. • Submit to Welsh Government. • Formal consultation, alongside the Preferred Strategy, which may trigger further amendments. 	November 2017 (published for informal consultation, with formal consultation alongside the Preferred Strategy in December 2018)
Delivery Agreement	Regulations 9 and 10 (2005) and Regulation 2 (3) (2015)	<ul style="list-style-type: none"> • Prepare a Delivery Agreement for the Replacement Plan, which includes a timetable for LDP 2 preparation and sets out community engagement methods. • Draft Delivery Agreement considered by Cabinet prior to consultation. • Public consultation on the draft Delivery Agreement. • Consider responses and revise, if necessary. • Amended draft to Council for approval. • Submit to Welsh Government for approval. 	November 2017 (published for consultation), approved by Welsh Government June 2018. Now under revision (this document) to reflect the Covid-19 pandemic in 2020.

Stage	Regulation	Key steps to be taken at this stage	Completion target dates and publication / submission dates
		<ul style="list-style-type: none"> Once approved by WG, publicise and notify all specific consultation bodies and appropriate general consultation bodies. 	
Sustainability Appraisal Scoping Report		<ul style="list-style-type: none"> Review baseline information. Review indicators and objectives. 3 Community Involvement Scheme

- 3.1 The Community Involvement Scheme (CIS) identifies the Council's principles for community involvement and explains how the Council will engage with stakeholders. It sets out who, when and how the Council will consult. Consultation is a requirement of the LDP process as a major driver in building consensus.
- 3.2 Early and continuous community involvement is important in helping to provide information and also in seeking consensus over the future development and use of land in Pembrokeshire. It is therefore essential that stakeholders and the community are involved at an early stage and throughout the plan preparation process.

Key Principles for Engagement

- 3.3 The main aims that underpin community engagement in the LDP process are:
- Creating the conditions for early involvement and feedback at a stage when people have the greatest opportunity to influence the plan;
 - Encouraging the commitment of all participants to an open and honest debate on realistic development alternatives in the search for a consensus; and
 - Recognising the need to adopt approaches for engaging the community, including business, which seeks the views of those not normally involved.
- 3.4 The Community Involvement Scheme (CIS) is the Council's statement of commitment to improving consultation through various community involvement mechanisms and by ensuring ongoing engagement. It sets out the consultation requirements at each stage of the plan, who will be consulted and what methods will be used.
- 3.5 The CIS provides the framework for everyone with an interest in the future of Pembrokeshire to become actively involved in preparation of the Replacement LDP.
- 3.6 Pembrokeshire County Council's CIS is based on the following four commitments:
- Transparency - making plans, policies and proposals for development and planning decisions available in a form which is easily understood and accessible.
 - Promoting participation by presenting clear opportunities for people to make their views known and to take part in the planning process, and demonstrating that people's views are part of and will be taken into consideration in the decision-making process.

- Accessibility - removing barriers to involvement by reaching out to groups that have been less engaged in the past.
- Accountability - clearly identifying decision-makers and processes and ensuring that people get feedback about progress and outcomes.

Principles of Community Involvement

3.7 The Council has identified some basic principles for community involvement. All consultation will be carried out with these principles in mind.

- **A culture of engagement** - People should know that they are welcome to take part in the planning process and that decision makers are really interested in their views.
- **Frontloading** - The community and stakeholders should be involved from the earliest stages of plan preparation.
- **Reaching out** - Methods used to encourage involvement should be appropriate to people's experience and needs.
- **Fit for purpose** - The types of consultation used should be suitable for the group being consulted and the issue being discussed. The Council will ensure that the views of the community as to the most appropriate techniques for engagement are considered.
- **Continuing involvement** - The community should continue to be involved throughout the process of preparing the Replacement Local Development Plan and related Supplementary Planning Guidance.
- **Clarity and transparency** - The planning process should be clear, so that people are able to participate in a timely and effective manner.
- **Clear and consistent** – The Council will use plain language that people understand and take account of special communication needs. It will avoid jargon and use words that people identify with. Clarity of communication will be reinforced by consistent messages, consistent tone and consistent use of our corporate image and brand.
- **Formal representations** - There will be consultations which will provide opportunities to respond to the Council's formal proposals. These are statutory requirements, set out in Regulations and representing the minimum in terms of community involvement.
- **Member Involvement** - It is important to involve elected Members of the County Council at all stages of plan preparation, starting with an evaluation of how well or otherwise the existing plan is working and including the drafting of the Replacement Plan.
- **Feedback** - Feedback will be provided to stakeholders after each consultation stage.
- **Conflict resolution** - Some issues are very difficult to resolve but hopefully a consensus will emerge about the issues the LDP will address and the options that exist. The Examination of the Plan will

provide opportunities for the Council and representors to discuss important and / or contentious issues with an independent Inspector. The Inspector will be able to make recommendations that will be binding on the Council, which must adopt the Plan in the manner that he or she directs.

- **Inclusiveness** - effort will be made to seek views from a cross section of interests, including those who have not traditionally participated in plan making. These are known as hard to reach groups. Mechanisms to engage with them are set out below.
- **Welsh language** – Bilingual engagement will be carried out in accordance with the Welsh Language Standards¹
 - The Authority welcomes correspondence in Welsh or English – correspondents will receive a reply in the language of the original letter.
 - Corresponding in Welsh will not lead to delay in processing your comments.
 - All standard letters, comments forms, newsletters and public notices will be bilingual.
 - All LDP policy and guidance publications will be bilingual.
 - All LDP publicity and advertising material will be bilingual.
 - All meetings, whether formal or informal, will be conducted bilingually where requested beforehand.

Consensus Building

3.8 The Council will seek to build consensus around a coherent strategy for future land use planning in the part of Pembrokeshire outside the National Park. This will only be achieved through the effective involvement of the community and other interested parties in the development process. Consensus building will be facilitated through the establishment and sharing of a common information base for the key issues from the outset. Forums and methods for sharing information, establishing common ground and agreeing the requirement for further information will all be part of the CIS. Where differences of opinion do occur, sharing the available information will enable different viewpoints to be understood and respected.

¹ Welsh Language Standards (Welsh Ministers, County and County Borough Councils, and National Park Authorities) Regulations 2015:
<http://gov.wales/docs/dcells/consultation/141106-regulations-welsh-languagestandards-en.pdf>

Who will be involved in the preparation of the LDP?

3.9 General Public

Interested Person's Database

The Authority has a database of interested persons and organisations who will be kept informed of progress with the LDP. Any member of the Public or Organisation can ask to join the database.

If you wish to be entered on this database, please contact the Development Plans Team on 01437 764551, email ldp@pembrokeshire.gov.uk or write to the *Development Plans Team, County Hall, Haverfordwest, Pembrokeshire SA61 1TP*. Please let us know if you require updates in paper format, otherwise all updates will be provided by email.

Anyone who makes a representation on the Plan at any stage will be added to the Interested Person's Database and receive updates at all key stages of Plan development.

3.10 City, Town and Community Councils

Each City, Town and Community Council has a PCC Link Officer who will provide a periodic update on preparation of the Replacement Plan.

Area specific meetings will be arranged with representatives of City, Town and Community Councils and the appropriate Council Members at key stages of Plan preparation. These will provide a forum to discuss the emerging policies and proposals for different areas of the County. These meetings will also include the Pembrokeshire Association of Local Councils (PALC) and One Voice Wales, both of whom are umbrella organisations representing local councils in Wales.

City, Town and Community Councils have a key role to play in disseminating information on the LDP to their local area. They will also be important in providing information and views to shape the proposals for their areas. Each City, Town and Community Council has been asked to nominate a LDP lead, who will disseminate information to other Councillors and, working with the Clerk, co-ordinate responses to the Council throughout the Plan process.

3.11 **Hard to Reach Groups**

The following have been identified as hard to reach groups that have often not engaged with the plan preparation process. These two groups will be encouraged to participate in the plan preparation process.

- Young people – the established Children and Families Executive Group will be used to ensure the views of young people are considered in the process. A Youth Seminar bringing together pupils from local Secondary Schools will also be used.
- Gypsies, Travellers and Travelling Show-people – Pembrokeshire has a comparatively large resident population of Gypsy Travellers, living both on sites and in housed accommodation. There are also a small number of Travelling Show-people within the County. This population will be reached primarily using existing channels of communication – which are through the Policy Planning and Change Manager (Social Care and Housing, Pembrokeshire County Council) and through the Pembrokeshire Gypsy Traveller Steering Group.

3.12 **Elected Members**

The involvement of elected Members of Pembrokeshire County Council throughout the Plan process is recognised as being of key importance by the CIS. The role of Members during Plan preparation is complex and varied. They will provide information on and represent their local areas, disseminate information to local residents and also provide a strategic input on matters affecting the whole Plan area. Members' seminars will be held before meetings of Cabinet where the LDP is being considered. The Cabinet Member for Planning and Sustainability is responsible for the LDP.

The approval of Full Council will be required at the Preferred Strategy and the Deposit Plan stages. It will also be needed for the Delivery Agreement, following consultation but prior to submission to Welsh Government.

3.13 **Stakeholder Groups**

A Key Stakeholder Group will be established. This group will assist with plan preparation by providing a representative view during its development, up to and including the Deposit Stage. The group will be made up of officers from the bodies forming the Pembrokeshire Public Services Board (PPSB), together with occasional specialists with expertise in particular topic areas, if required for specific technical discussion. LDP matters will be discussed at bespoke meetings, rather than at the regular PPSB meetings.

Specific stakeholder groups may also be set up drawing on members of the specific and general consultation bodies, if required. They will provide a forum

where views can be discussed and attempts can be made to reach a consensus on the way forward on specific topics or geographical areas. The topic areas might include:

- The economy
- Housing
- The environment
- Utilities and infrastructure
- Community, local services and culture
- Sustainability Appraisal including Strategic Environmental Assessment

Where there are existing partnership groups which already cover the topics identified, liaison with these groups may provide an alternative to setting up topic stakeholder groups.

In some cases, meetings may also be held with individual stakeholders.

3.14 **Existing Partnerships**

The Council will seek to integrate its LDP consultations and activities with the work being carried out by other partnerships, wherever this is possible. These partnerships include:

- Pembrokeshire Public Services Board
- Pembrokeshire Business Panel
- Pembrokeshire Business Network
- Haven Waterway Enterprise Zone
- Health, Social Care and Well-being Joint Commissioning Partnership Board
- Local Nature Partnership
- Community Safety Partnership
- Children and Families Executive Group
- Affordable Housing Working Group
- Pembrokeshire Gypsy Traveller Steering Group
- Local Transport Forum
- Destination Pembrokeshire Partnership
- Pembrokeshire Planning Agents' Forum

It is anticipated that the existing work of these Partnerships will help inform the content of the Replacement LDP.

3.15 **'Specific Consultation Bodies' and 'UK Government Departments'**

These consultees (referenced as Groups B2 and B3 in the Local Development Plan Manual 2015) comprise those bodies with specific functions that apply within the Plan area, for example Dŵr Cymru Welsh Water, which is the local water undertaker. The Authority also needs to

consult UK Government Departments where aspects of the plan appear to affect their interests.

These consultees will be provided with an opportunity to comment at key formal stages in Plan preparation. Some of these groups may also be important members of other stakeholder groups.

3.16 General Consultation Bodies

General Consultation Bodies' include voluntary bodies, those which represent the interests of different racial, religious, ethnic, national or disabled groups in the Plan area, as well as those which represent the interests of persons carrying on business and those which represent the interests of Welsh culture.

'Other Consultees' are those which do not necessarily fall within the above categories, but still have an interest in the Plan area which may be affected by the Local Development Plan.

These bodies will be provided with an opportunity to comment at key formal (statutory) stages. Some of these groups may also be important members of other stakeholder groups.

3.17 Planning Agents and Developers and those suggesting land for development

The existing Pembrokeshire Planning Agents' Forum which brings together representatives from the Local Planning Authority, local developers, architects and other agents working in Pembrokeshire will be used to ensure that the views of Agents and Developers within the County are considered during Plan preparation.

Those wishing to submit areas of land that they would like to see identified for development or other purposes will have the opportunity to do so through the Candidate Sites process. Anyone added to the Interested Persons' Database will receive regular mailings updating them on Plan preparation processes. The Council will issue a formal call for candidate sites and prepare a Candidate Site submission form and short explanatory note for those wishing to submit a Candidate Site. The standardised form is to ensure that sufficient data accompanies each Candidate Site submission, which will then allow a robust assessment to be made. All submissions must be made via the Candidate Site Submission form and returned to the Development Plans team via email at ldp@pembrokeshire.gov.uk or by post to the *Development Plans Team, County Hall, Haverfordwest, Pembrokeshire SA61 1TP*.

How will the Council communicate with those involved?

3.18 Methods of Participation and Consultation

A full list of the specific and general consultation bodies is supplied at the end of this document. With the exception of Key Stakeholders and Hard to Reach groups, all consultees listed will be contacted early in the Plan preparation process to establish whether they would like to be involved in the preparation of Plan Review, establishing a preferred contact, method of contact and language preference. The Key Stakeholders and 'Hard to Reach' groups will be involved throughout Plan preparation. The Council will use a range of methods in community involvement, the table on page 8 provides details of who will be consulted at each stage and how they will be consulted. An analysis of the different methods of consultation and their pros and cons is set out in Appendix 6 of the original DA, the results of which are still applicable for Plan Review.

3.19 Petitions

Petitions received during consultation on the plan will be recognised and registered as a valid representation. Every petition must nominate a single presenter. An acknowledgment by letter or email will be sent to the presenter of the petition who will be the point of contact who will have a right to be heard at any future examination, subject to agreement by the Inspector. This does not limit the right of individuals signing the petition to submit separate formal representations on the Plan.

3.20 Feedback

The Council will ensure that feedback is provided as soon as possible on the outcome of community engagement and consultation throughout the plan preparation process. Feedback from the Council will take the following forms:

- Acknowledgement letter or e-mail providing contact details and details on how the Council will deal with the representation and when a response will be published. A record of public consultation events undertaken will be published as part of the LDP Evidence Base and will be available on the Council's website.
- A report of representations received in response to each consultation will be placed on the Council's website.

3.21 Late representations

The Council will be firm on its stance to deadlines and all representations must be made by the specified closing date. Acceptance of late representations is entirely at the discretion of the Council. Where a representation/submission is late, the Council will only allow it to stand where evidence is provided to show how a genuine attempt was made to submit

within a deadline. Otherwise the process is delayed and those who submitted on time will be penalised.

3.22 Availability of documents

Documents will need to be made available at various stages of plan preparation. All documents will be available on the Council's website, www.pembrokeshire.gov.uk. Paper copies of consultation documents were made available at the following locations up to and including the Deposit-stage consultation:

- County Hall, Haverfordwest (the formal Deposit location)
- Customer Service Centre², Haverfordwest
- Customer Service Centre, Pembroke Dock
- Customer Service Centre, Fishguard
- Customer Service Centre, Milford Haven
- Customer Service Centre, Neyland
- Haverfordwest library
- Fishguard library
- Milford Haven library
- Pembroke Dock library
- Cardigan library
- Tenby library
- Saundersfoot library
- Crymych library
- Pembroke library
- Narberth library
- Newport library
- Neyland library
- St. Davids library

Post-Deposit, the Council has retained the LDP 2 documents at these locations, but many of them have been closed or subject to restricted opening due to Covid-19. Documents issued for consultation post-Deposit will continue to be placed at the locations listed above provided there is an element of public access available. However, greater emphasis will be placed on electronic communications via the Council's website or emails post-Deposit.

Copies of appropriate documents will also be sent to the Specific Consultation bodies either in digital format, on CD ROM or via web links for download depending on the document size. In exceptional circumstances (for example

² The Customer Service Centre Team Leader will hold a copy

if Deposit locations are not able to host copies of documents) paper copies will be offered to those without the technology to read digital documents. .

3.23 Resources

The participation and consultation exercises will be undertaken by the LDP team, in partnership with other Council services where appropriate, primarily the Marketing and Communications team. The Council is fortunate to have a pool of individual officers who are trained and experienced in facilitation techniques. These officers will be involved in facilitating qualitative research on behalf of the LDP team, this may include focus groups, workshops etc.

3.24 Covid-19 update

The Covid-19 pandemic has had a significant impact on the way that people lead their lives. From an LDP perspective, the Deposit-stage consultation closed immediately prior to the March 2020 lockdown.

Up to and including the Deposit consultation, the requirements of the Community Involvement Scheme as initially conceived were met in the manner set out in the initial Delivery Agreement.

Looking ahead, some aspects of the Community Involvement Scheme will have to change to reflect new realities. The LDP team is now working remotely, so cannot be contacted in person at County Hall, but is still available by telephone or email during normal working hours. Documents previously made available at County Hall, at Customer Contact Centres and at local Libraries are still in place, but access to those buildings is unavailable or restricted. However, Libraries are now re-opening in a phased manner. Council, Cabinet and Committees now take place electronically through computer links.

The forthcoming Focussed Change consultation will have to take place in a different manner to earlier LDP 2 consultations. It also remains to be seen how the LDP 2 Examination will be progressed and it is possible that hearing sessions may have to take place remotely through electronic communications.

The timetable and methods of engagement table in paragraph 3.25 below were adhered to up to and including the Deposit-stage consultation. It is therefore retained as initially drafted. The subsequent paragraph 3.26 re-works this in two ways, by providing a timetable update to reflect slippage largely attributable to the Covid-19 pandemic and to revise methods of public engagement in a manner that avoids those that would be difficult or impossible to achieve because of Covid-19.

3.25 Timetable and Methods of Engagement

Details of the Timetable and associated methods of consultation as initially conceived and as applied up to and including the Deposit stage are set out in the table below. This is largely unedited in comparison with that in the initial Delivery Agreement. An edited version to apply to the post-Deposit stages follows in paragraph 3.26.

3.27 Consultation Code of Practice

¹⁰ Sections 69, 70 & 76 of the 2004 Act; LDP Regulations 3, 25A & 41 2005 / 2015

In general, the consultation bodies and individual consultees should:

- Respond to enquiries within a reasonable time (i.e. 15 working days).
- Make efforts to vary the cycle of meetings on key issues such as the LDP to enable reasonable response times.
- Demonstrate commitment to the process by attending, contributing and generally assisting the process of seeking consensus.
- Listen and engage in the debate with an open mind.
- Raise legitimate development/spatial issues that can be influenced/controlled by the LDP and the planning system.
- Identify sites to be considered for possible development including allocations within the plan at an early stage (there were advertised opportunities to submit Candidate Sites in the early stages of the process)
- Highlight any gaps in the data/information that is supplied (this is particularly important for the statutory consultation bodies in the SA/SEA for the LDP).
- Ensure they understand the wider context and engage and respond responsibly.
- Ensure that responses are made within the statutory consultation period, which will usually be six weeks. However, a longer period was made available for Candidate Site submissions.
- Ensure that their response is sent to the address and where appropriate the person specified before the formal end of the consultation period (which normally will run for six weeks) in the format specified wherever possible.
- Include in their response all the relevant information to be considered by the Council in a format that is accessible to all, to enable a transparent and open consideration of the representation.
- Provide appropriate names and contact details to allow for feedback and responses from the Council.
- Be aware that all correspondence (unless marked 'confidential'), all responses and all representations will be in the public domain, and attributable to the author.

At the Examination, the consultation bodies and individual consultees should:

- Follow the appropriate procedures for the Examination.
- Ensure that any correspondence is sent to the address and where appropriate the person specified by the Planning Inspector. Electronic communication is preferred to minimise manual handling of paper documents.
- Include in the submitted evidence all the relevant information to be considered by the Inspector in a format that is accessible to all, to enable a transparent and open consideration of the representation.
- Provide appropriate name and contact details to allow for feedback and response from the Planning Inspector.

- Understand that the Inspector's report is binding on the Council and that there is no recourse for appeal in respect of the recommendations of the Inspector and the reasons for those recommendations.

It is important that the consultation bodies and individual consultees in the process meet the above obligations, in order to ensure that the Council can prevent any unnecessary delays in formulating the Development Plan and importantly, meet the requirements set down in the Delivery Agreement as revised (this document).

3.28 **Key Stakeholder Group**

This will be drawn from the following organisations / groups:

- Dyfed Powys Police
- Hywel Dda Health Board
- Mid and West Wales Fire and Rescue Service
- Milford Haven Port Authority
- Natural Resources Wales¹¹
- Pembrokeshire Association of Voluntary Services (PAVS)
- Pembrokeshire Coast National Park Authority
- Pembrokeshire County Council Members
- Pembrokeshire County Council Internal Consultees
- Pembrokeshire College
- Welsh Government

3.29 **Consultation Bodies & Organisations**

A) City, Town and Community Councils local to Pembrokeshire

- Fishguard and Goodwick Town Council

¹¹ Including Forestry Commission, Countryside Council for Wales & Environment Agency Wales

- Haverfordwest Town Council
- Milford Haven Town Council
- Narberth Town Council
- Newport Town Council
- Neyland Town Council
- Pembroke Town Council
- Pembroke Dock Town Council
- St. Davids City Council
- Tenby Town Council
- Ambleston Community Council
- Amroth Community Council
- Angle Community Council
- Boncath Community Council
- Brawdy Community Council
- Burton Community Council
- Camrose Community Council
- Carew Community Council
- Cilgerran Community Council
- Clunderwen Community Council
- Clydau Community Council
- Cosheston Community Council
- Crymych Community Council
- Cwm Gwaun Community Council
- Dale Community Council
- Dinas Cross Community Council
- East Williamston Community Council
- Eglwysrwrw Community Council

- Freystrop Community Council
- Hayscastle Community Council
- Herbrandston Community Council
- Hook Community Council
- Hundleton Community Council
- Jeffreyston Community Council
- Johnston Community Council
- Kilgetty / Begelly Community Council
- Lampeter Velfrey Community Council
- Lamphey Community Council
- Letterston Community Council
- Llanddewi Velfrey Community Council
- Llandissilio West Community Council
- Llangwm Community Council
- Llanrhian Community Council
- Llanstadwell Community Council
- Llawhaden Community Council
- Maenclochog Community Council
- Manorbier Community Council
- Manordeifi Community Council
- Marloes and St. Brides Community Council
- Martletwy Community Council
- Mathry Community Council
- Merlins Bridge Community Council
- Mynachlogddu Community Council
- Nevern Community Council
- New Moat Community Council

- Nolton and Roch Community Council
- Penally Community Council
- Pencaer Community Council
- Puncheston Community Council
- Rosemarket Community Council
- Rudbaxton Community Council
- St. Dogmaels Community Council
- St. Florence Community Council
- St. Ishmaels Community Council
- St. Mary-out-Liberty Community Council
- Saundersfoot Community Council
- Scleddau Community Council
- Solva Community Council
- Spittal Community Council
- Stackpole and Castlemartin Community Council
- Templeton Community Council
- The Havens Community Council
- Tiers Cross Community Council
- Uzmaston, Boulston and Slebech Community Council
- Walwyns Castle Community Council
- Wiston Community Council
- Wolfscastle Community Council

Community Councils bordering Pembrokeshire in Ceredigion

- Cyngor Cymuned Beulah Community Council
- Cyngor Cymuned Llangoedmor Community Council
- Cyngor Cymuned Y Ferwig Community Council

- Cyngor Tref Aberteifi / Cardigan Town Council

Community Councils bordering Pembrokeshire in Carmarthenshire

- Eglwys Gymyn
- Whitland Town
- Henllan Fallteg
- Cilymaenllwyd
- Llanboidy
- Llanwinio
- Trelech
- Cenarth

B) Specific Consultation Bodies¹²

- Welsh Government¹³
- Pembrokeshire Coast National Park Authority
- Carmarthenshire County Council
- Ceredigion County Council
- Cadw
- Natural Resources Wales
- [Network Rail](#) Infrastructure Limited

¹² See [Local Development Plan Manual - Edition 2 \(2015\)](#) (Welsh Government 2015)

¹³ LDP Manual advises the Planning Division will co-ordinate consultations on behalf of the Welsh Government

- [SSE¹⁴](#), [British Gas](#), [Countrywide Energy](#), [Ecotricity](#), [Good Energy](#), [EDF Energy¹⁵](#), [National Grid¹⁶](#), [Npower](#), [E.ON](#), [Western Power Distribution](#), [Dwr Cymru](#), [Health and Safety Executive Hazardous Installations Division](#), [Utilita](#), [Cable and Wireless Communications](#)
- [Department of Transport](#) (including the Secretary of State for Transport for functions previously exercised by the Strategic Rail Authority)
- [Department of Business, Energy and Industrial Strategy](#)
- [Home Office](#) (Civil defence matters; policies on prisons etc')
- [Ministry of Defence](#)
- [Hywel Dda Health Board](#)

C) General Consultation Bodies

(i) Voluntary bodies benefiting the area

- [Age Concern](#)
- [Communities First](#) (Haverfordwest - Garth, Pembroke Dock - Central, Llanion and Pennar, Pembroke - Monkton and St Marys North)
- [Hafal](#)
- [Pembrokeshire Association of Voluntary Services¹⁷](#)
- [Pembrokeshire Care Society](#)
- [Pembrokeshire Youth Service](#)
- [Pembrokeshire Young Farmers](#)
- [Shelter Cymru](#)
- [Wales Council for Voluntary Action](#)

¹⁴ Includes SWALEC, Scottish & Sothern Electricity Networks, Southern Electric, Scottish Hydro & Airtricity

¹⁵ Includes SWEB

¹⁶ Includes Transco. Operators in Wales are Wales & West Utilities

¹⁷ PAVS represent a range of community and charity groups within our county, including arts groups, children's groups, disability groups, environment and heritage groups, religious groups, etc.

- [West Wales Action for Mental Health](#)

3.30 Analysis of consultation methods

Method	Advantages	Disadvantages	Resources
Letters	<ul style="list-style-type: none"> • Can access large numbers of people • Direct contact 	<ul style="list-style-type: none"> • Can be expensive • Time consuming • Excludes people who are illiterate 	Medium – staff time
Use of Council website & social media outlets e.g. Facebook	<ul style="list-style-type: none"> • Allows large volumes of information to be accessed • Can be easily & quickly updated • Targets a younger audience (hard to reach group) • Inexpensive 	<ul style="list-style-type: none"> • Not everyone has access to the internet • Has to be updated regularly otherwise detrimental effect • Excludes people who are illiterate 	Low – staff time
Email	<ul style="list-style-type: none"> • Faster and more cost-effective than post 	<ul style="list-style-type: none"> • Can't access those without email addresses • Excludes people who are illiterate 	Low – staff time
Documents available for inspection at Council office, libraries, customer service centres	<ul style="list-style-type: none"> • Fulfils part of minimum statutory requirement • Free & easy access during normal office hours 	<ul style="list-style-type: none"> • Access issues for people without transport • People who work during day may not be able to access • Excludes people who are illiterate • Public access to Council offices, libraries and customer service centres may not be possible or subject to restrictions as a consequence of the Covid-19 pandemic 	Low – staff time
Local press & PR	<ul style="list-style-type: none"> • Wide audience • Raise profile 	<ul style="list-style-type: none"> • Can be costly • Impact can be limited 	Medium – costs of placing notice advert

Method	Advantages	Disadvantages	Resources
		<ul style="list-style-type: none"> Excludes people who are illiterate 	
Radio – Radio Pembrokeshire	<ul style="list-style-type: none"> Access to a wide audience Raise profile 	<ul style="list-style-type: none"> Can have cost implications 	Medium – costs of adverts
Leaflets/newsletter	<ul style="list-style-type: none"> Can provide regular feedback 	<ul style="list-style-type: none"> Costs of production & postage 	Medium – production costs/staff time
Surveys	<ul style="list-style-type: none"> Opportunity for people to feedback their opinions. 	<ul style="list-style-type: none"> Can be low return rate, so may not be representative. 	Medium – production and postage costs
Road shows/ Exhibitions/ Conference	<ul style="list-style-type: none"> Good way to disseminate information Opportunity to meet people face-to-face to obtain views/discuss issues 	<ul style="list-style-type: none"> Some people may have trouble accessing Attendees are self-selecting Need to be held in a variety of locations/times to be effective Can be costly Relies on PCC to interpret and record what is being said Not possible in post-Deposit period, due to Covid-19 and related social distancing imperatives 	High – staff time, design costs for exhibitions
Surgeries in local communities	<ul style="list-style-type: none"> Can be held in areas not usually accessed Good opportunity to meet people to obtain views/discuss issues 	<ul style="list-style-type: none"> Time consuming Can't go to every community area Relies on PCC to interpret and record what is being said Not possible in post-Deposit period, due to Covid-19 and related social distancing imperatives 	Medium/High – staff time

Method	Advantages	Disadvantages	Resources
Workshops/Focus Groups	<ul style="list-style-type: none"> • Structured discussion • Can be directed to particular groups • Opportunity to explore issues in depth 	<ul style="list-style-type: none"> • Needs careful facilitating to ensure everyone can have a say Relies on PCC to interpret and record what is being said • Can be held via video conferencing to ensure social distancing. 	Medium – focus group facilitators needed
Public meetings	<ul style="list-style-type: none"> • Open meeting • Engage in debate 	<ul style="list-style-type: none"> • Can be dominated by strong characters so may not get representative view • Needs careful preparation & strong chairing • Relies on PCC to interpret and record what is being said • Not possible in post-Deposit period, due to Covid-19 and related social distancing imperatives, but could be held via video conferencing if required. 	High– staff time. Senior staff involvement

4 Monitoring and Review

Delivery Agreement

4.1 It was not expected initially that the Delivery Agreement would need to be amended following its adoption by the Council and endorsement by Welsh Government. However, there were three circumstances set out in which a review of the Delivery Agreement might be needed:

- If Plan preparation fell behind schedule (i.e. there was slippage in excess of three months);
- If significant changes were required to the Community Involvement Scheme; and / or
- If significant changes occurred in the resources available to undertake Plan review.

To these can now be added a further item:

- In the event of a global pandemic.

4.2 The Council will check that the Delivery Agreement objectives are being complied with at each main stage of the Plan process.

4.3 Timings beyond the Deposit stage were indicative. In the post-Deposit period, these later timings have been checked and a set of definitive timings for the stages to Submission has been prepared and included in this document. These take account of slippage due to the Covid-19 pandemic and ongoing restrictions arising from this. Dates for the indicative stages beyond Submission have also been revised, but remain indicative. The revised Delivery Agreement will be submitted to the Welsh Government for approval.

Local Development Plan

4.4 A full review of the Local Development Plan is required to be undertaken four years following its adoption. The same requirement relates to a Replacement Plan – a full review will be required to be undertaken four years after it is adopted.

4.5 Annual Monitoring Reports for the Replacement LDP will be submitted to Welsh Government by the 31st October each year following adoption. These will cover the previous financial year – i.e. running to the 31st March in the same year and looking back a year from then (i.e. to 1st April in the previous year). The reports will be published to the Authority's web-site and key issues will feed into review of the Plan. Exceptionally, issues identified in an Annual Monitoring Report may prompt an early review of the Plan, either in part or whole.

- 4.6 Until such time as the Replacement LDP is adopted, Annual Monitoring Reports for the first iteration of the LDP will continue to be submitted to Welsh Government by 31st October each year.
- 4.7 Emerging Annual Monitoring Reports will be subject to consultation with Members and key stakeholders. Final versions will be published on the Council's website following submission to Welsh Government.
- 4.8 Further review of the LDP may be triggered either by reaching the date four years following adoption of the Plan currently in force or as a consequence of one or more issue(s) being raised by an Annual Monitoring Report which are of sufficient severity to require early review. In the event that either happens, the process of Plan preparation will re-commence, initial tasks including preparation of a further Review Report, preparation of a new Delivery Agreement and preparation of new or updated evidence.

5 Useful contacts

- 5.1 You can contact the LDP team either by telephoning 01437 764551 or by emailing ldp@pembrokeshire.gov.uk
- 5.2 For further information about LDP review or about revision of Supplementary Planning Guidance documents, please contact an officer in the LDP team:
- Sara Morris
 - Bob Smith
 - Emma Evans
 - Charlotte Harding
 - Julie Kirk
 - Eirian Forrest
 - Kane Thomas
- 5.3 If you would like further information about the Sustainability Appraisal, Strategic Environmental Assessment or Habitats Regulations Appraisal being undertaken in conjunction with LDP review, please contact:
- Michelle Webber

Appendix 1 Soundness tests

- A1.1 LDPs are expected to be prepared in conjunction with a comprehensive process of engagement with the communities in the Plan area and with neighbour authorities. The Local Planning Authority will refine its options in order to produce what it considers to be a sound Plan, based on the evidence it has collected and taking into consideration feedback from local communities and neighbours.
- A1.2 Going into Examination, the presumption is that the Plan is sound unless it can be shown to be otherwise through evidence presented to the Examination Inspector. Hence those who object to an LDP will be expected to show why, in their opinion, the Plan isn't sound and what needs to happen to make it sound.
- A1.3 To provide a basis for an assessment of whether or not a Plan is sound or otherwise, Planning Policy Wales and the LDP Manual set out three tests of soundness.
- A1.4 The LDP Manual indicates that, in order to be adopted, an LDP must be determined 'sound' by the Examination Inspector. The Examination Inspector will use the three tests of soundness to make that judgement in relation to the Plan as a whole. Inspector's will consider individual objections, but in the context of how these address the Plan's overall soundness.
- A1.5 Brief details of the three tests of soundness were set out in section 1 of this document. The LDP Manual elaborates on these, as shown below. Changes to test 1 are being proposed by Welsh Government, to reflect the emergence of Strategic Development Plans (SDPs) and the National Development Framework (NDF), to replace the references to the Single Integrated Plan with ones for the Well-being Plan and to delete the reference to the Wales Spatial Plan (which will be superseded once the NDF is in place).
- A1.6 **Test 1: Does the Plan fit (i.e. is it clear that the LDP is consistent with other plans)?**

Questions:

- Does it have regard to national policy and the Wales Spatial Plan?
- Does it have regard to Well-being Goals?
- Does it have regard to the Welsh National Marine Plan?
- Is it consistent with regional plans, strategies and utility programmes?
- Is it compatible with the plans of neighbouring authorities?
- Does it reflect the Single Integrated Plan (SIP) or the National Park Management Plan (NPMP)?

A1.7 Test 2: Is the Plan appropriate (i.e. is the plan appropriate for the area in the light of the evidence)?

Questions:

- Is it locally specific?
- Does it address the key issues?
- Is it supported by robust, proportionate and credible evidence?
- Can the rationale behind Plan policies be demonstrated?
- Does it seek to meet assessed needs and contribute to the achievement of sustainable development?
- Are the vision and the strategy positive and sufficiently aspirational?
- Have the 'real' alternatives been properly considered?
- Is it logical, reasonable and balanced?
- Is it coherent and consistent?
- Is it clear and focused?

A1.8 Test 3: Will the Plan deliver (i.e. is it likely to be effective)?

Questions:

- Will it be effective?
- Can it be implemented?
- Is there support from the relevant infrastructure providers both financially and in terms of meeting relevant timescales?
- Will development be viable?
- Can the sites allocated be delivered?
- Is the Plan sufficiently flexible? Are there appropriate contingency provisions?
- Is it monitored effectively?

Appendix 2 Population and household profile and industrial structure

A range of evidence to support the LDP, including more detailed demographic analysis has been prepared and is available at:

<https://www.pembrokeshire.gov.uk/local-development-plan-review/ldp2-evidence-base>

- A2.1 According to the Office for National Statistics National population projections 2018-based, the total population of Wales in 2018 was 3.1 million, comprising 1.55 million men and 1.59 million women. The population of Wales represents 5.3% of the total population of England and Wales.
- A2.2 In Pembrokeshire, there was an increase in population between 2001 and 2018, from 114,131 to 127,700¹⁹.
- A2.3 In 2011, the population density of Pembrokeshire was the fourth lowest in Wales at 0.76 usual residents per square kilometre.
- A2.3 There was also an increase in the number of household spaces in Pembrokeshire between 2001 and 2018, from 48,176 to 55,697. Looking at the 2011 figure, 68.8% were owned (with or without a mortgage), 0.3% were in shared ownership (part owned and part rented), 15.7% were rented from a local authority or registered social landlord, 13.5% were rented privately and 1.7% were living rent free.
- A2.4 The latest Welsh Government projections are the 2018 based projections.
- A2.5 Total estimated households in the National Park at 2018 was 10,517. Total households in Pembrokeshire Outside the National Park was 45,179.. However, if land areas are compared, a different picture emerges. The total area of Pembrokeshire is 1590km², with 612km² of this in the National Park. That gives an area-based split of 61.51% outside the National Park and 38.49% within.
- A2.6
- A2.7 The 2018 based sub-national population projections for 2018 to 2028for Pembrokeshire anticipate increases in the County's private household population of 1.9%,
- A2. More detailed evidence in relation to the 2018 based projections are set out in the LDP evidence document Edge Analytics 2020 Demographic Update.

¹⁹ <https://gov.wales/sites/default/files/statistics-and-research/2020-08/subnational-population-projections-2018-based-280.pdf>

A.2.9 Office for National Statistics (ONS) data for 2018 on employee jobs by industry is set out below. This indicates the industrial structure of Pembrokeshire, with comparative all-Wales figures also provided.

Employee jobs by industry – Pembrokeshire and Wales		
	Pembrokeshire	Wales
B – Mining and Quarrying	0.3%	0.1%
C – Manufacturing	7.0%	11.4%
D – Electricity, gas, steam and air conditioning supply	0.6%	0.6%
E – Water supply, sewerage, waste management and remediation services	0.7%	1.0%
F – Construction	5.8%	5.1%
G – Wholesale and Retail Trade; Repair of Motor Vehicles and Motorcycles	16.3%	14.0%
H – Transportation and Storage	4.1%	3.3%
I – Accommodation and Food Service Activities	16.3%	8.0%
J – Information and Communication	0.9%	2.1%
K – Financial and Insurance Activities	0.9%	2.6%
L – Real Estate Activities	1.4%	1.6%
M – Professional, Scientific and Technical Activities	4.7%	5.6%
N – Administrative and Support Service Activities	4.1%	6.9%
O – Public Administration and Defence; Compulsory Social Security	5.2%	7.1%
P – Education	8.1%	9.1%
Q – Human Health and Social Work Activities	18.6%	16.9%
R – Arts, Entertainment and Recreation	4.1%	2.4%
S – Other Service Activities	1.6%	1.8%

(Source: Nomis – Official Labour Market Statistics)

The above table excludes data on farm-based agriculture and hence the % figures do not take this sector into consideration. Earlier data from 2011, which does take this sector into account, indicated that across Wales 1.7% of employee jobs were in farm-based agriculture at that date, but that in Pembrokeshire the figure was significantly higher, at 4.7% of employee jobs.

A.2.10 In March 2020 (prior to Covid-19), 76.2% of people of working age were in employment in Pembrokeshire, compared with 73.7% in Wales as a whole. Gross weekly pay in 2019 in Pembrokeshire was £490.50, compared with £540.70 in Wales as a whole. (Source: Nomis website, 2021).

A.2.11 In terms of economic activity, the position for the period from April 2019 to March 202 is shown below:

Employment and unemployment, April 2019-March 2020

All people	Pembrokeshire (numbers) – age 16 and over	Pembrokeshire (%) – age 16 to 64	Wales (%) – age 16 to 64
Economically active	59,100	79.6	76.6
In employment	56,700	76.2	73.7
Employees	43,900	60.5	63.6
Self-employed	12,400	15.3	9.6

(Source, Nomis – Official Labour Market Statistics)

A.2.12 The immediate effects of Covid-19 can be seen in the ONS claimant count data between March and July 2020:

Claimant count for claimant aged 16+	Pembrokeshire numbers	Pembrokeshire (%)	Wales (%)	Great Britain (%)
March 2020	2,225	3.1	3.1	3.1
April 2020	4,160	5.8	5.4	5.1
May 2020	4,480	6.3	6.1	6.4
June 2020	4,330	6.1	6.0	6.2
July 2020	4,540	6.3	6.2	6.5

A2.13 As part of re-assessing the LDP evidence base to identify whether specific changes are needed to the Deposit Plan to respond to Covid-19, the Authority

has commissioned an update to the Two County Economic Study which will inform its assessment.

Appendix 3 Resources available and risks for the timetable

A.3.1 It is critical that a budget commitment and staff resources for LDP preparation are available from the outset of Plan review. Broad details of Pembrokeshire County Council's commitments for these purposes are shown below:

A.3.2 The LDP budget commitment (where known) is as follows:

LDP Total Core Service Budget (Cabinet Budget Line) 2021/22: £377,770

Access to Council reserves is also available for the costs of the Examination.

A.3.3 The following staff structure is in place to support LDP preparation:

Development Plans and Conservation Manager (4 days per week, with the proportion of time spent with each team being flexible, depending on work demands and priorities)

Principal Planning Officer (100% of time, 1 officer, 5 days per week)

Senior Planning Officers (2 officers, 1 for 4 days a week and 1 for 2.5 days a week)

Planning Officer (100% of time, 1 officer, 4 days per week)

Section 106 monitoring officer (50% of time, 1 officer for 5 days per week)

Team Leader, Conservation and Sustainability (50 % of time, 1 officer for 5 days per week)

Technician (1 officer for 5 days a week)

Programme Officer – an appointment has been made in August 2020, the number of days will vary during LDP Review, rising to full time during the Examination in Public.

A.3.4 The potential risks to the timetable are shown in the table below. Slippage beyond 8 weeks will require formal amendment to the Delivery Agreement.

<i>Potential issue</i>	<i>Risk level</i>	<i>Potential impact</i>	<i>Possible mitigation</i>
Budget cuts	High	Programme slippage	Seek to maintain budgets throughout the preparation period and use reserves should exceptional difficulties arise.
Staff shortages	High	Programme slippage	Seek to maintain staffing levels in the LDP team throughout the preparation

<i>Potential issue</i>	<i>Risk level</i>	<i>Potential impact</i>	<i>Possible mitigation</i>
			period, seek support from other sections within the Council and temporary loans from other LPAs should exceptional difficulties arise.
Emergence of new Welsh and / or UK legislation, policy or governance requirements	High	Programme slippage	Address with existing resources and within tolerance limits, if feasible.
Unanticipated levels of objection to specific parts of the Plan or the Plan as a whole	Medium	Programme slippage	Address with existing resources and within tolerance limits, if feasible
Planning Inspectorate and / or statutory consultees being unable to meet timetable requirements	Low	Programme slippage	Regular liaison with the Planning Inspectorate and statutory consultees, with a view to avoiding this type of problem wherever possible. Ultimately, control of this matter is outside the Council's control.
Failure of Plan to satisfy the tests of soundness	Medium	Part of the Plan is excluded or changed, or additional material needs to be included in the Plan prior to adoption, or the whole Plan is withdrawn	Liaison between Welsh Government, Council Members and the LDP team, to ensure that plan procedures and content are sound at all key stages, in particular including Deposit, Submission and Examination.
Delays relating to printing and / or translation	Medium	Programme slippage	Ensure that any external graphics input is planned well in advance and to an agreed schedule. Provide the translators with early notice of requirements for Welsh translation of all major documents.
Legal challenge(s)	Low	Adopted Plan is quashed	The probability of this happening is low, but cannot be discounted. If

<i>Potential issue</i>	<i>Risk level</i>	<i>Potential impact</i>	<i>Possible mitigation</i>
			the Plan is quashed through the Courts, a substantial amount of additional work is inevitable.
Global pandemic	High	Significant delays to Plan process including impacts on reporting, evidence gathering and updating, consultation, public engagement and independent examination	This has happened and the solution will be to revise the timetable to allow more time for plan preparation, consultation, evidence collection, public engagement and examination procedures. Further additional lockdowns may impact on the timetable.

Appendix 4 Glossary of Terms

<i>Abbreviation</i>	<i>Full term</i>	<i>Meaning</i>
	Adoption	
AMR	Annual Monitoring Report	These yearly reports provide an evaluation of how the adopted Local Development Plan is being implemented. They include a contextual update and report on a range of indicators and targets which relate to the Plan's vision, objectives, policies and proposals.
	Candidate Site	A site nominated by a landowner, developer or member of the public as one with potential for allocation for a specified purpose, inclusion within a Settlement Boundary or designation for a specified purpose. Nomination is not a guarantee of inclusion within the Plan for the suggested purpose, but each suggestion will be evaluated in conjunction with LDP preparation.
CIS	Community Involvement Scheme (for LDP 2)	This scheme forms part of the Local Development Plan's Delivery Agreement for LDP 2. It explains how the Council will involve communities and stakeholders (including developers and businesses) in the preparation of the Local Development Plan.
	Delivery Agreement (for LDP 2)	This public statement sets out the Council's timetable for preparation of the Replacement Local Development Plan. It also includes the Community Involvement Scheme (see above). It commits the Council to produce its Replacement LDP according to stated timescales and consultation processes.
	Deposit Plan	This is a full draft of the Local Development Plan, published as a basis for public consultation. Members of the public, communities and stakeholders may register support for the Plan, or objection to it, at this stage of the process.
	Evidence Base	Information and data that provides a basis for the preparation of an LDP's vision, objectives, policies and proposals.
HRA	Habitats Regulation Assessment (Appropriate Assessment)	This provides screening and appropriate assessment of any likely significant effects of a plan or programme which might have an adverse impact on the integrity of a site of European importance which is formally protected for its nature conservation value.

<i>Abbreviation</i>	<i>Full term</i>	<i>Meaning</i>
	Inspector's Report	This will be prepared by the Independent Inspector who examines the Replacement LDP and could contain recommendations on the content of the final LDP which would be binding on the Council. In other words, the Council will have to adopt the LDP in the manner directed by the Inspector.
LDP	Local Development Plan	This document sets out the Council's policies and proposals for the development and other use of land in the Council's area of planning jurisdiction (which is the County, except for National Park locations). Policies and proposals in an LDP cover the main types of development. The current LDP was adopted by the Council on 28/03/13 and will remain in force until the Replacement LDP is adopted or it reaches its expiry date (on 31/12/17), whichever is the sooner.
LDP 2	Local Development Plan 2 / Replacement LDP	This will ultimately replace the current LDP and is a full review of the Plan adopted on 28/02/13. Its formal title is the Replacement LDP, which for simplicity is sometimes called LDP 2.
LPA	Local Planning Authority	The public authority which is responsible for preparation of a Local Development Plan and for the determination of Planning Applications within a specified area. In Wales this will be a County Council, a County Borough Council or a National Park Authority. In Pembrokeshire there are two Local Planning Authorities – Pembrokeshire County Council for locations outside the Pembrokeshire Coast National Park and the Pembrokeshire Coast National Park Authority for those locations within the Park boundary.
NPMP	National Park Management Plan	This is a strategic Management Plan which co-ordinates and integrates the provisions of other plans, strategies and actions affecting National Park purposes and duties.
PCC	Pembrokeshire County Council	This is the name of the Local Planning Authority preparing the Replacement LDP.
PCNPA	Pembrokeshire Coast National Park Authority	The Pembrokeshire Coast National Park Authority provides planning services in the part of Pembrokeshire which is designated as National Park. The National Park Authority prepares its own Local Development Plan and determines its own planning applications. It is a statutory

<i>Abbreviation</i>	<i>Full term</i>	<i>Meaning</i>
		consultee and key stakeholder for the Council's LDP. It also prepares the National Park Management Plan (see above).
PINS (Wales)	The Planning Inspectorate, Wales	This is an independent body, one of whose Inspectors will formally examine the Council's Replacement LDP.
PPW	Planning Policy Wales	This document sets out Welsh Government's planning guidance for Wales.
	Preferred Strategy	This document will set out the broad strategic direction for the Replacement Plan. It will set the regional and local context, include a vision and objectives, provide links to key statutory documents, summarise the proposed Plan strategy, set the general scales for future housing and employment developments, identify broad locations for non-strategic sites and criteria for their inclusion, set a policy direction for implementation of the strategy, include a key diagram showing the preferred spatial strategy and explain the likely structure and scope of the Deposit Replacement LDP, together with the approach to be used for Candidate Site evaluation.
	Review Report	This sets out the LDP revision procedure to be followed, based on an assessment of what has been considered, what needs to change and why it needs to change, based on evidence, much of which will have been gathered in conjunction with preparation of earlier LDP Annual Monitoring Reports. However, it will not say how the LDP is going to be changed, as this comes later in the Plan preparation process.
SA, including SEA	Sustainability Appraisal, including Strategic Environmental Assessment	This is a policy appraisal tool based on sustainable development objectives. It focuses on social, environmental and economic factors. Sustainability Appraisal also incorporates the requirements of the Strategic Environmental Assessment Regulations. The Strategic Environmental Assessment requirement is derived from European legislation, transcribed into Welsh Regulations. It requires the environmental assessment of certain plans and programmes, including those relating to planning and land use.
SIP	Single Integrated Plan	This is a jointly prepared Plan setting out a broad policy approach to dealing with a

<i>Abbreviation</i>	<i>Full term</i>	<i>Meaning</i>
		range of key objectives over a broad range of service areas. The Pembrokeshire SIP covers the period 2013 to 2018 and was prepared by the Pembrokeshire Local Service Board and its associated partnerships. The SIP is a single document which replaced an earlier suite of plans, specifically the Community Plan (Community Strategy), the Children and Young People's Plan, the Health, Social Care and Well-being Strategy and the Community Safety Strategy. SIPs are now, in turn, being replaced by Well-being Plans (see below).
	Soundness Tests	For a LDP to be adopted, it must be determined to be 'sound' by the Examination Inspector. The Examination Inspector will use the three Tests of Soundness to make that judgement in relation to the Plan as a whole. Inspector's will consider individual objections, but in the context of how these address the Plan's overall soundness. Further details of the nature of the tests are given in paragraph 1.13 and in Appendix 1 of this document.
SPG	Supplementary Planning Guidance	Supplementary Planning Guidance is used to elaborate on specific aspects of a Local Development Plan. It may be topic-based or alternatively can take the form of a Development Brief for a specific site or area. SPG does not form part of the LDP, but there has to be a clear link between it and the parent LDP. When subject to appropriate consultation and Cabinet resolution, it will become a material consideration in the determination of planning applications.
	Submission	This is the stage at which the Council will send the emerging LDP, the related SA (including SEA) and HRA documents and key items of evidence to Welsh Government. Welsh Government then notifies the Planning Inspectorate, who will appoint an Inspector to independently examine the Plan.
TAN	Technical Advice Note (Wales)	This suite of guidance notes has been prepared by Welsh Government to elaborate on various aspects of Planning Policy Wales.

<i>Abbreviation</i>	<i>Full term</i>	<i>Meaning</i>
	Well-being Assessment / Plan	These are superseding the Single Integrated Plan and will take forward the provisions of the Well-being of Future Generations Act, 2015, at County level. They are being prepared by the Pembrokeshire Public Services Board (PSB) and will look at what is important for people and communities in the County, in a well-being context.
WFG Act	Well-being of Future Generations Act 2015	<p>This Act seeks to improve the social, economic, environmental and cultural well-being of Wales. Public bodies are expected to embrace long-term thinking, work effectively with local people, communities and each other and work in a co-ordinated, joined-up, manner. Seven well-being goals have been put in place by the Act:</p> <ul style="list-style-type: none"> • A prosperous Wales; • A resilient Wales; • A healthier Wales; • A more equal Wales; • A Wales of cohesive communities; • A Wales of vibrant culture and thriving Welsh language; and • A globally responsive Wales. <p>The Act seeks to address key challenges relating to climate change, poverty, health inequalities, jobs and growth. The Act is underpinned by the sustainable development concept and well-being duties.</p>
